Description of Duties	<p>Manage IT, Network Racks, and Cabinets including network switches, routers, patch panels, and cables. Maintaining computer equipment, installing new software updates, repairing damaged hardware. Doing preventive maintenance of equipment and assets in order to keep them running and prevent any costly unplanned downtime from unexpected equipment failure. Repairing computers and other technology including upgrading software or hardware systems. Troubleshooting any software issues that may arise and providing user support. Configuring laptops, printers, scanners and email accounts.</p>
Major Achievements	<p>Improved IT infrastructure: During my time as an IT support specialist, I implemented a new network management system that streamlined the university's network operations. This resulted in a more stable and reliable network, with reduced downtime and improved connectivity across the campus. Enhanced IT support services: I implemented a ticketing system that allowed users to report IT issues more efficiently. This system enabled us to respond to user requests more quickly, track issues, and resolve them in a timely manner. As a result, user satisfaction with IT support services significantly improved.</p>
